A WORD FROM OUR CEO

The reason why Love Rocket exists is within its name. Love. It is not only a game of voyeur - it is a contract between two people. It is a game of stakes, thus it is an analogy of war as the higher stakes are cast upon the attacking side.

What is at stake? Dignity? Yes. A successful defence will

bare the attacker's body, not only for the counterpart to see, but the viewers behind them as well. Which is why tickets for these events are very sought after.

This is not meant to only humiliate the offensive side, as the rockets also bring sensations of great pleasure.

These sensations have had one, equally pleasant side effect. They have made the offender attracted to the defending side. This of course, depends a lot the communication. Even good chances can be thrown away. How will it go for you?

Her missile blasts damage the clothes. The blast and damage zones must overlap.

More bases intact gives more coins

HOW TO WIN

Chaining explosions will add 50 damage to each new blast. Combos also have a chance to yield **lottery tickets**, which can give up to 500 coins.

Coins are the main currency in Love Rocket. A good way to earn coins are the lottery tickets. You can use coins to do any in game purchase.

Planes and satellites drop coins and give 3 missiles (one for each base), but they are faster and harder to hit.

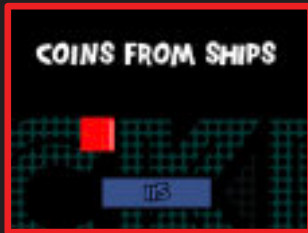

Missiles are your consumables. If you run out, you lose. One of the first power-ups you should buy is missile production.

THE SHOP

Powerups will help you out. Prices go up with every new purchase, so plan your purchases. Maximum level for each powerup is 4.

Pro girls are tougher than the normal girls, but to be eligible to match against them, you need to pay a fee to play against each girl.
